Extracting Technical Information from the Information Reports

1. The Office of Communications has a Research and Development Program for the development of non-conventional power sources. This work includes a study of fuel cells and thermoelectric generators. We have on hand a number of Information Reports containing technical data on fuel cells and thermocouples. We would like to make technical data from these reports available to the contractor under-taking our power sources study.

2. Authority is requested to extract such technical information as is contained in the reports itemized below for forwarding to an Agency cleared electrochemist employed by the contractor:

25X1

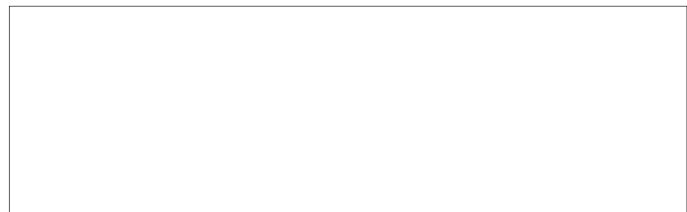

3. It is requested that a decision concerning this request be forwarded to this Office at your earliest convenience due to the current requirement for this information.
